VOL. XXVI.

HOPKINSVILLE, KENTUCKY, SATURDAY, DECEMBER 3, 1904.

NO. 97:

## FOREIGN MISSIONARY RALLY

At the Christian Church Will Be Held Next Monday, Dec. 5.

### 3 SESSIONS IN ONE DAY.

President Archibald McLean, One of the Noted Mission Workers, to Preside.

Three notable meetings are to be held at the Christian church next Monday, Dec. 5th. These meetings are the sessions of the Annual Foreign Missionary Rally of the Christian churches of this section of Kentucky. They are to be conducted by Rev. Archibald McLean, President of the Foreign Christian Missionary Society, of Cincinnati, Ohio. No collections, offerings or pledges of any kind will be asked. The rally being wholly educative in its purpose. The people of all religious faiths are cordially invited.

The interest of these meetings is in the instructive and inspiring leadership of President McLean. He has been the leader in Foreign Missions among the Disciples now for many years. He has sacrificed for the cause much that men account precious, and for the sake of his sacrifices and arduous labors he is loved and revered by more than a million people. His information and his vigor as a leader are equal to his ability. He has visited the great mission fields of the world and is therefore out of a first hand knowledge. He has written me books which are of authority in their special fields. They are all upon Foreign Missions.

Indeed there is no man in all the churches of the Disciples who so much stands for a single thought as he. He thinks, writes and speaks about Foreign Missions and has done so from his youth almost exclusively. The Apostle's declaration, "This One Thing I Do," has few better or nobler modern illustrations than his life.

The hours of the meetings are 10 a. m., 2 p. m., and 7 p. m.

## CEO. HOLLAND WILL BE HUNG JANUARY 13.

One of the Pembroke Murderers Will Pay the Penalty On the Gallows.

### GOVERNOR FIXES DATE.

An Unlucky Day In the New Year Will Close His Career.

Frankfort, Ky., Dec. 2.—George Holland, the condemned negro murderer, of Christian county, whose case has been affirmed by the Kentucky Court of Appeals, is to be hanged at sunrise on Friday morning, January 13, 1905. Governor Beckham fixed this date yesterday, upon receiving the mandate of the Appellate Court.

Holland was indicted and convicted of complicity in the murder of an unknown man near Pembroke, Ky.

Holland is one of the leaders in the awful crime and made a confession soon after his arrest. The murder was perpetrated by a gang of negroes near Pembroke on the night of Nov. 14, 1903. Nine were arrested and four were given the death sentence. The local court gave one a new trial and the Court of Appeals gave new trials to two.

### In the Police Court.

Judge Knight has imposed several sentences this week. Rosa Boyd and Mary Faulk were given 17½ days each in the city work house for fighting, and Will Nance was given 27½ days for breach of the peace. All of the parties are colored.

### A Child's Death.

Bennettstown, Ky., December 2.—Mr. Dudley Myers' little infant daughter, 16 months old, died near Bennettstown, Thursday night, of bowel trouble. The funeral will take place this afternoon.

## SHIPMENTS CONTINUE TO GO OUT.

Nearly Three Hundred Hogsheads of Tobacco Sold This Week.

### THE LOOSE MARKET.

Planters Ready For Rehandling When Good Season Prevails.

The local tobacco market, while not very active at present, continues in good shape. The sales for the past week amounted to 253 hogsheads, all disposed of privately.

Sales for the year foot up 13,574 hogsheads, and receipts for the same period, 14,285 hogsheads. Shipments continue to go out steadily and stocks are beginning to show a full reduction.

The weather has been so dry since the new crop was cured, that very little of the weed has yet been handled, but the farmers are well up with their work and ready to commence rehandling as soon as they can get a season. The same cause is responsible for the inactivity of the loose market; as the tobacco has been so dry that it could not be moved from the barn, or even taken down.

## BERRY PRICE POPCORN BOY BADLY HURT

Runaway Horse Knocks Him Senseless and He is Still Laid Up.

### HAD A VERY CLOSE CALL

Clyde Smith and Frank Larson Thrown From a Buggy On South Main Street.

Berry Price, a youth who was engaged in running a popcorn popper at the corner of Ninth and Main streets, was badly injured by a runaway horse Wednesday evening. Messrs. Clyde Smith and Frank Larson were driving home from the country on South Main and in the indistinct light and semi-darkness struck the wheel of a buggy in front of Mrs. M. A. Wood's. Their horse was frightened by the collision and swerving to one side threw Mr. Smith out. Mr. Larson jumped out as the horse started to run, as Mr. Smith had the lines when he fell. Near Mr. H. C. Richards' the horse broke the shaft from the buggy and tore down Main street at a furious rate, blind with fright. At the corner of Ninth he ran upon the pavement in trying to turn the corner and the dragging shaft struck young Price, who was running to escape. The horse slipped and fell near the corner and was caught and held.

Price was knocked senseless and it was thought at first had been killed. Drs. Ketchum and Jackson were near at hand and succeeded in reviving him and he was taken to his home. The boy lives with his sister, Mrs. Pillow, whose husband recently died.

His injuries are very painful but it is not thought they will prove fatal. His head is gashed and one hip very badly bruised and there are other bruises of a more or less serious nature. Price will be laid up for several days.

The horse belonged to a local livery stable. Messrs. Smith and Larson are employees of the H. C. Telephone company. Mr. W. H. Cummings was passing in his carriage and his horses attempted to run away in the excitement, but he held them down and stopped them after they had run a block or two.

### Cold Wave Coming.

Washington, D. C., Dec. 2. For Kentucky: Rain turning to snow and much colder tonight. Saturday snow and colder, with cold wave.

The last man arrested for murder in Louisville was not even fined.

One Republican elector in Maryland got in by 51 votes. The other seven are Democrats.

The report of the Secretary of War gives the present strength of the army as 60,183, including 3,744 officers.

Gov. elect Wm. L. Douglas, of Massachusetts, has figured it out in an interview that his picture has been printed eighty billion times as an advertisement since 1883.

Gov. E. W. Hoch, of Kansas, a country editor and a strong church man, announces that he will have no inaugural ball.

"Gen." Jacob S. Coxey, of "Coxey's Army" fame, has taken the bankrupt law for \$387,000, with assets hardly worth mentioning. His petition was filed at Columbus, O.

Mr. W. C. Barriekman has sold the Shelbyville Sentinel to Hon. M. O'Sullivan, former representative from Shelby county. Editor Barriekman will practice law.

The jury in the Nan Patterson murder case, in New York, was discharged when the trial was nearly over, on account of the illness of a juror. A new trial will begin next Monday.

Miss Nancy Letter, of Chicago, a sister of Lady Mary Leiter Curzon, of India, was married Tuesday to Maj. Colin P. Campbell, an English officer stationed in Calcutta. The wedding took place in Washington.

W. H. Overby, of Henderson, who was the Republican candidate for Congress in the Second district, is a candidate for Collector of Internal Revenue, to succeed E. T. Franks, who comes under the rule of "two-terms-and-out."

Mrs. Lavinia Rogers Ray, of Edmonston, Metcalfe county, is the only known daughter of a Revolutionary soldier now living in Kentucky, since the death of Mrs. Bennett, at Smithland this week. She is a daughter of Edmund P. Rogers, who died 60 years ago. She is now 78 years old.

Under a new law in Illinois, prison labor is prohibited and all the convicts in the two penitentiaries are idle. This has caused two murderers sentenced to "hard labor" to bring habeas corpus proceedings to obtain their release on the ground that their sentences are now inoperative and with nothing to do they are in danger of becoming insane. Their attorneys hold that the legislature had no power to suspend the execution of a judgment and that imprisonment without work is "cruel and inhuman" and a greater punishment than the law has decreed.

The Review of Reviews for December presents a series of contributed articles of unusual variety and interest. Mr. Walter Wellman writes on "The United States and the World's Peace Movement." Mr. Winthrop L. Marvin describes the work of the Merchant Marine Commission, appointed during the last session of Congress to investigate American shipping conditions in our great ports. The four "men of the month" chosen as the subjects for character sketches are Chief Engineer Wm. B. Parsons, of the New York Rapid Transit Commission; President David R. Francis, of the Louisiana Purchase Exposition; Chairman George B. Cortelyou, of the Republican National Committee, and Governor-elect William L. Douglas, of Massachusetts.

The city attorneys of Louisville, and there are three of them, are among the best paid officials in Kentucky. Mayor Grainger on Dec. 1 re-organized the legal department of the city by appointing Fred Furcht attorney, Morton K. Yonta first assistant, and Dan E. O'Sullivan second assistant. The salaries are \$5,000, \$3,000 and \$2,500 respectively. Mr. O'Sullivan is an old newspaper man who was admitted to the bar last winter. Mr. Yonta is a son-in-law of Judge T. H. Paynter and recently removed from Paducah to Louisville.

Mrs. James Longstreet, the young widow of the old Confederate General, has written a book called "Lee and Longstreet at High Tide." The introduction is written by a Union man—Gen. Daniel E. Sickles, of New York, a Democrat of prominence. The book is intended to be a defense of Gen. Longstreet, who became a Republican in his old age.

The will of Richard M. Scruggs, a prominent St. Louis merchant who died recently, provides for the distribution of nearly \$150,000 among religious institutions, including \$5,000 each to the Bishops of the Methodist church for use in foreign missionary work.

The Court of Appeals decided the contest in the Ninth District in favor of Bennett, Republican, who was given the certificate of the State Board, following the decision, by 43 votes over Kehoe, Democrat.

The World's Fair wound up Thursday at midnight in a blaze of glory. The fair will pay out and have a surplus over. The attendance was about 18,800,000 for the seven months.

Peter Nissen attempted to cross Lake Michigan in a balloon boat called "The Fool Killer." It killed him, and his body was washed ashore near Stevensville, Mich.

Maj. Gen. James R. Carnahan has been vindicated of the charge of favoritism in awarding the prizes at the Knights of Pythias convalee in Louisville last August. The court of inquiry was held at the instance of Gen. Carnahan by the Grand Lodge.

Congressman G. G. Gilbert has appointed David O. Byars, of Shelbyville, a cadet at West Point Academy.

## Public Announcement.

I desire to state publicly to all, that while I was originally opposed to two telephone systems, that I have found out from observation and experience that the Home Telephone Company of this city has caused a telephone revolution that never before seemed possible.

The reduced rates and the improved service are such that I feel every loyal citizen should patronize and support the Home Company and for the above reasons I wish to announce that from now on you can reach me over the Home phone No. 1277.

Very respectfully,  
A. J. MEADOR.

## NEW RULING.

Administrator Recovers Big Damages.

The third trial, of the case of Wm. Herndon, administrator of M. W. Johnson, against the New York Life Insurance company, involving \$50,000, and interest amounting to \$17,000, resulted in a verdict for the plaintiff in Judge Gordon's court at Louisville. The case, when tried first, resulted in a victory for the plaintiff who recovered the full amount. A reversal followed, and in the second trial a hung jury.

Johnson was the agent of the defendant company at Paintsville. He took out insurance amounting to \$50,000 and mailed his notes in payments. The policy was mailed, but the company refused to accept the notes and so notified Johnson.

He claimed that in mailing the policy they had accepted the payment. While the matter was the subject of correspondence Johnson died and the company protested payment.

The Home Phone a Winner.

In this issue is an announcement from Mr. Jack Meador, one of our popular business men who was against the Home Telephone Co., at the beginning of their work.

Mr. Meador, like a great many others, has fully realized the fact that this home enterprise has been the greatest blessing from a telephone standpoint, this county has ever had.

We have now, through the Home Company, the finest service in our State and can boast of the most modern fire alarm telephone service in the world.

The Home Company has also made it possible to talk all over the county for less than what we formerly paid for indifferent local service. Mr. Cooper, the President and principal stockholder of the Home Company, and his associates in the enterprise, are deserving of the most hearty and cordial support.

Every favor of the Cumberland Company has been forced by the Home Company and every time we talk to Penhoke or any other point in Christian County over the Cumberland lines, we should not forget that the Home Company has given us this privilege.

The Home Company has done more for Hopkinsville and Christian County in less than one year than the Cumberland ever did in twenty years.

Success and long life to our Home enterprise, The Automatic Phone.

### THREE BUSY DAYS.

#### About Thirty Thousand Dollars Paid In.

Wednesday was the last day for the payment of State and county taxes before the ten per cent penalty went on, and the sheriff's office was crowded all day. In fact, Monday, Tuesday and Wednesday were very busy days. On Monday the collections amounted to about \$6,000; on Tuesday, \$8,000, and on Wednesday, \$12,000, making a total of \$26,000 for the three days. This amount does not include about \$4,000 in warrants, which would make the total \$30,000.

### SCARE IS OVER.

Many indigent negroes who have been well for weeks are in the hospitals, but will be officially discharged as soon as possible.

### BUSSES BARRED.

#### Tennessean Who Lived 70 Years and Never Kissed a Woman.

Eli Richardson, a wealthy old man who died at Martin, Tenn., a dispatch says, last week, never kissed a woman. He boasted that he had never put his lips to a woman's, though he was married, and "Uncle Eli," as he was called, wasn't a "microbe crank" either.

In explaining recently how he had happened to eschew the joys of osculation, he said he was a very timid and bashful boy, and at a party before the Civil war a game was often played in which the young woman had to forfeit a kiss to her captor.

Young Richardson's timidity being known, a plan was formed to kiss a girl. She being posted, placed a pin in her mouth and when Eli's bashful lips were to press hers she was to prick his lips with the pin. The fateful moment came. Eli demurred but was prevailed upon to take the kiss from the seemingly backward maiden. His courage gained strength and he started to imprint the kiss, but his eye caught the gleam of the pin and he refused, and from that day until his death he never attempted to or did kiss a woman, because he had resolved not to do it after this disappointment.

**Large Crowds Continue to Attend the Services.**

The meeting by Rev. Paul Price at the Baptist church is proving to be a most interesting series of sermons. The prayer services in the afternoon are well attended and at night large crowds are on hand. Mr. Price is a good preacher in every respect. He has something new every time and is appealing to the sinners from many different standpoints.

**BALK NEGRO COLONY.**

**Minnesota Farmers Yet May Prevent Booker's Plan.**

Duluth, Minn., Nov. 28.—The settlers in Aetrami county have banded together to prevent the colonization of southern negroes there, and the scheme of Booker Washington may be frustrated. There are about 150 prosperous farmers, mostly Scandinavians, who are joining in the movement, and a protest will be made. If this fails, sterner measures are spoken of. The country is very rich and the section is an ideal place for a colony. The soil is extremely fertile and wheat raised there commands a higher price than that from any other section of the state.

**AS SPECIAL JUDGE.**

**Hopkinsville Jurist Decides Important Case at Paducah.**

Judge C. H. Bush has just returned from Paducah, where, as special judge, he tried the case of S. B. Hughes, trustee, against W. B. McPherson. The suit was to cancel a lease held by said McPherson on a piece of property belonging to the heirs of Mrs. Ann T. McNary, the lease having been made to him by her executors. The ground upon which they sought to annul the lease was that her executors had no power under her will to lease her real estate. Judge Bush decided that they had implied power to lease the property and that the lease was ratified by the heirs of the said Mrs. McNary and also by S. B. Hughes, who purchased from them, and he therefore decided in favor of the defendant, McPherson.

**NEW DEVELOPMENTS**

**In the Schafer Case Expected At Any Time.**

Mrs. McDonald has filed suit for divorce. At his trial for the murder of Miss Schafer his wife was the star witness for the defense, but what trouble between his brother-in-law, his wife and himself has broken out it is expected that, should they know anything regarding his whereabouts and actions on the night of the murder, they will disclose it. The prosecution is expecting new developments.

Railroads and farmers are buying water at the city water works and hauling it for miles. The big bluegrass stock farms are in dire distress.

**NEW FRUITS.**

**An Orange That Will Endure the Winters of Kentucky.**

Secretary Wilson and his chief of the Bureau of Plant Industry began in 1897 to try to produce a hardy orange by crossing the Florida orange on the hardy but worthless little Japanese orange, a native of Japan that will stand any kind of cold. This year these crosses are coming into bearing and while hundreds of them are sour and worthless, four distinct new and valuable fruits have been originated, including a sweet orange equal to the Florida fruit. Secretary Wilson says while the returns are not yet sufficient to justify predictions, he is convinced that the plant-breeders of the department have produced a substitute for the Indian River orange that will be just as palatable and tough enough to endure any frost that may ever visit the gulf states. Samples have come from regions where the ordinary Florida orange could not possibly survive, and if the convictions of Dr. Galloway and his assistants prove to be well founded another valuable staple has been discovered which will add to the wealth of all the states south of Mason and Dixon's line. The young trees have already endured four winters, in which the temperature frequently went as low as six degrees above zero, without suffering the slightest injury, and that will bring them within the reach of all of the south Atlantic and gulf states and the lower altitudes of Tennessee, Kentucky and Arkansas.

Writing of the new fruits William E. Curtis says in the Chicago Record-Herald that the Secretary adds:

"Thus far we have four distinct results that are extremely gratifying and of unusual economic value. In the first place, we have a tart and bitter orange that is not suitable for the table, but makes the best marmalade you ever tasted. Second, we have a tart fruit with a beautiful flavor that is every bit as good as grape-fruit, and will be quite popular for table use. Third, we have a fruit as sour as a lemon and full of juice of equally good flavor, which will make a good substitute for the killing Sarah Schafer, the Bedford Latin teacher, is again in jail. About two weeks ago McDonald's wife filed a complaint against him, charging him with assault and battery. He left the city, but he returned this week and he was then arrested. Mrs. McDonald has filed suit for divorce. At his trial for the murder of Miss Schafer his wife was the star witness for the defense, but what trouble between his brother-in-law, his wife and himself has broken out it is expected that, should they know anything regarding his whereabouts and actions on the night of the murder, they will disclose it. The prosecution is expecting new developments.

The plant-breeders of the Agricultural Department have produced still another new fruit for breakfast use, which is sure to be popular and will be distributed in the same way. It is the result of the marriage of the pomelo of Japan and the tangerine of Algiers. The fragrance of the Mediterranean and the hardy vitality of the Northern Pacific Ocean have met and the result is the "Tangene," which has the flavor of the tangerine and the size of the pomelo and can be grown in any kind of soil and in any climate where the temperature does not go below zero.

The department is introducing the mango tree from India and the Philippines and is trying to breed that up to endure the climate of this country. It is a delicious fruit, both for table use and for preserving, but it is now too delicate to survive our frosty winters. It is hoped, however, that it can be crossed with some hardier plant that can endure our climate.

**MRS. HEN'S WORK.**

**Egg Crop for a Month Would Pay Interest on Debt**

The Secretary of Agriculture has transmitted his eighth annual report to the President. In opening his report the Secretary enumerates some of the more important features of the year's work. Among them are extensive co-operation with agricultural stations; the taking of preliminary steps to conduct feeding and breeding experiments; the war waged against the cotton boll weevil and against cattle mange; plans for the education of engineers in road building; the production of a hardy orange, a hybrid of the Florida orange and the Japanese trifoliata; valuable research in successful shipping of fruit abroad; the value of nitrogen-fixing bacteria; successful introduction of plants suited to light rainfall areas; establishment of pure food standards; the extension of agricultural education in primary and secondary schools.

The corn crop of 1904 yields a farm value greater than ever before. The farmers could from the proceed of this single crop pay the national debt, the interest thereon for one year, and still have enough left to pay a considerable portion of the government's yearly expenses. The cotton crop, valued for lint and seed at \$600,000,000, comes second, while hay and wheat contend for the third place. Notwithstanding the wheat crop shows a lowering production than any year since 1900, the farm value is the highest since 1881.

Horses and mules reached the highest point this year, with an aggregate value exceeding \$1,845,000,000. On the other hand, cattle, sheep and hogs all show a slight decline.

The steady advance in poultry leads to some astonishing figures. The farmers' hens now produce between one and two billions of dozens of eggs and at the high average price of the year the hens during their busy season lay enough eggs in a single month to pay the year's interest on the national debt.

**KENTUCKY EXHIBIT**

**Saved as Nucleus of a Permanent Museum.**

The Kentucky Exposition Commission decided to turn over all of the valuable staple Kentucky exhibits at the world's fair to the Kentucky Geological Survey at Lexington, to be held there until the new capitol is completed, when they will be installed there as the nucleus of a permanent exhibit.

The exhibit is valued at about \$20,000.

The Kentucky Building was sold for \$325, the wrecking company agreeing to pay for the proper restoration of the grounds according to the rules of the exposition company. The beautiful \$1,000 piano donated by a local piano firm will be placed in the Kentucky Mansion for the use of the Governors of Kentucky.

The commissioner's report showed that of the fund allowed for expenses of the commissioners about \$1,000 will be returned to the treasury.
